Web Pages Launched For Library College Departments

Did you know that the University Libraries is a college with two departments as well as a service organization providing library and information services? Although our Web site reflects these functions, the emphasis until now has been heavier on the faculty services and lighter on the more traditional activities of faculty at the University.

To remedy the imbalance, we have created new home pages for the two departments - *Technical Services* and *Public Services*. The pages identify and introduce the faculty and staff members in each area, provide annual reports, statistics, and policies, and explain the mission and services offered by each department. Please check us out at:

<http://www.uri.edu/library/techserv> for the *Technical Services Department*

<http://www.uri.edu/library/pubserv> for the *Public Services Department*

Budget Constraints Affect Site License for Geographic Information System (GIS) Software

We have maintained an annual site license for GIS software from ESRI (Environmental System Research Institute, Inc.) since 1992. The software was distributed to faculty and staff free of charge because we have shared the annual \$25,000 licensing cost with the Environmental Data Center (EDC) at the College of Environment and Life Science.

Unfortunately, budget constraints no longer allow us to continue maintaining the license without contributions from other URI departments who are using this software. Therefore, as of July 1, 2001, faculty and staff will be required to pay an annual fee to install or maintain GIS software on University-owned machines. The fee structure is as follows:

<i>License and Annual Fee</i>	<i>Included Software</i>
ArcGIS 8.1 (Windows 2000 only) -requires hardware key and license file Fee: \$800 for the first license \$200 for each additional license	ArcInfo: ArcView, ArcEditor, ArcInfo Desktop, ArcInfo Workstation ArcInfo Desktop: ArcMap, ArcCatalog, ArcToolbox ArcInfo Workstation: ARC, ARCEDIT, ARCPLOT ARC Macro Language: TIN, GRID, COGO ArcGIS Extensions: Spatial Analyst, 3D Analyst, Geostatistical Analyst, ArcPress, StreetMap USA
ArcView 8.1 (Windows 2000 only) Fee: \$150 each license	ArcView ArcGIS Extensions: Spatial Analyst, 3D Analyst, Geostatistical Analyst, ArcPress, StreetMap USA
Other	Refer to the link below
